Applying the **PLD Gold Standard** to gifted education...

We are passionately committed to providing the very best quality PLD in this field to support both teachers and ultimately their students.

We seek to ensure that you have an enriched deep understanding of what giftedness really means for the individual. We show you genuinely effective and practical teaching strategies for every classroom situation. We provide you with individual and ongoing support and guidance from highly experienced tutors. We have different opportunities to suit your specific situation:

[1] Certificate of Effective Practice in Gifted Education

We've been offering this acclaimed high-interest international award-winning 13-module course since 2006. Developed specially for Aotearoa New Zealand but taken by teachers from numerous countries, it remains the most practical in-depth course for the educator wanting to develop expertise in this field.

[2] The Gifted Intensive

From the beginning of 2022, we're excited to be offering a brand-new course specially designed for teachers with a keen interest in this field but without the time to take the longer course. This four-module intensive covers the same field and provides the same level of guidance but in a compacted form.

Both courses are appropriate for educators working with all age levels. Both are delivered online, to make them easily accessible wherever you are. Both are very affordable!

- A prospectus and enrolment form for each course is on our website.

[3] Free of cost support materials

Our website is packed with additional material to provide extra information, advice and guidance for you.

- See our "Key Concepts" page for items relevant to everyone teaching in this field, including a unique holistic definition of giftedness developed especially for Aotearoa New Zealand.
- Check out our "Resources" page for a whole series of thought-provoking articles on a wide range of topics in giftedness.
- Go to "More PLD" for practical advice for both teachers and administrators on accessing and implementing PLD.
- And there's more! A parents' page, background information on REACH itself, book info...

All on our newly updated website, www.giftedreach.org.nz!
